

VALVES & STEAM

Process Valves & Actuators

Manual and actuated valves for plant and process requirements. Specify the valve and actuator together so the operating requirements are clear.

Unit for enquiry: each | Product range

Product range example; confirm the make and configuration quoted.

PRODUCT DETAILS

Valve	Size, material and connection standard
Actuator	Pneumatic / electric / manual
Operation	On-off or modulating; required fail position

TYPES / CONFIGURATIONS

Butterfly valve | Ball valve | Control valve | Actuator only

This is a Beccentric product information and selection sheet. It is not a certified engineering drawing or a guarantee of stock. Confirm the exact product, compatibility and operating limits before ordering.

Specify your requirement

Process Valves & Actuators

The choices below help prepare an enquiry. Other sizes and identification assistance can be requested. Not every combination is available.

Nominal valve size	DN 10, DN 15, DN 20, DN 25, DN 32, DN 40, DN 50, DN 65, DN 80, DN 100, DN 125, DN 150, DN 200, DN 250, DN 300
Connection	BSP threaded, NPT threaded, Flanged, Butt weld, Socket weld, Hygienic connection
Required pressure class / rating	e.g. PN16; confirm the complete duty
Medium, pressure & temperature	e.g. water; pressure and temperature

INCLUDE WITH YOUR ENQUIRY

Medium, pressure, temperature, connection, actuator supply, control signal and fail-safe action.

Quantity: _____ Required date: _____

Company / RFQ reference: _____

Exact replacement only / alternative for approval: _____
